

special care

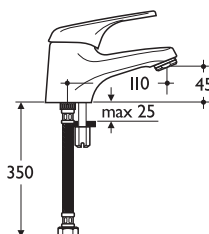

lever operated mixers

Lever operation enables valves to be opened and closed without the need for tight grasping, pinching or twisting of the wrist.

This ease of operation makes lever taps and mixers appropriate for universal use.

See brassware section for details of pressure ratings.

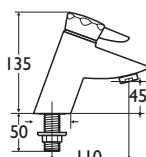

- Lever operation
- Washbasin mixers
- Shower mixer
- Suitable for closed fist operation

- Piccolo monoblock mixer
- Single lever operation

Illustrated
B1990AA Piccolo 2 washbasin monoblock single lever mixer, no waste.

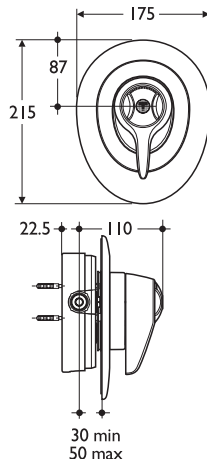

Special notes
Consideration should be given to safe hot water delivery and the use of an appropriate temperature reduction device

- Washbasin spray mixer
- Single lever operation

Illustrated
S7446AA washbasin spray mixer, chromium plated, with integral volume and spray controls

Special notes
Consideration should be given to safe hot water delivery and the use of an appropriate temperature reduction device

Illustrated
A3085AA Trevi CTV built-in concentric thermostatic mixing valve with lever operation, chromium plated
L6745AA Includes multifunction kit

Standards
Meets the requirements of the NHS model engineering specification - D08 for Type 3 valves
TMV3 Thermostatic

- Thermostatic shower mixer
- TMV3 scheme approved

mixing valve scheme approved

Special notes
Operating pressures from 0.1 to 5.0 bar. Suitable for use with either Trevi or Outline shower kits. Can be used with gravity or high pressure shower kits. Suitable for rising or falling supplies. Inlets and outlet screwed 1/2in BSP male

Options
A3084AA Trevi CTV exposed in concentric thermostatic mixing valve with lever operation, chromium plated
L6744AA Includes multifunction kit
