# The Coram range offers the best value and is the easiest to install, which is why Coram shower enclosures are the choice of **more professional installers** than any other.

Each model is beautifully designed and finished, offering superb features and guaranteed quality.

The entire Coram range is designed and built in Britain to suit British site requirements.

There is a vast selection of shower enclosures on the market, but the majority of foreign manufactured products are not designed to be completely watertight. They are therefore prone to leaks, which on the continent is not a problem, because bathrooms are usually fully tiled with concrete floors. In Britain however, where we have wooden floors and carpeted bathrooms, leaks can cause serious damage.

When Coram Enclosures and Coratech® Showertrays are used together their performance is so unbeatable and reliable we offer a watertight lifetime guarantee. For full details of guarantee see page 63.

## NEW

### Premier frameless enclosures

These are a new luxury range of the most stylish enclosures available. They offer the minimal style of a wetroom panel with the added screening of a fully enclosed shower area.

### Optima enclosures

Optima is designed specifically for housebuilders as a lower cost alternative to Premier. It is available in a smaller range and with less features than Premier, but it is still the best value alternative available.

### Glass shower panels for walk-in enclosures

Glass shower panels allow you to create a superb, minimalist shower enclosure - a 'walk-in' style design, without the need for a shower door.

### Coratech® showertrays

Coratech® is a unique resin developed by Coram for use in their showertrays. It has all the strength of traditional 'stone resin' showertrays but without the excessive weight.

### Premier enclosures

Premier offers the best value for professional installers and their customers. The most extensive range with the best features, which is the easiest to fit and seal; to provide the perfect installation.

### Bathscreens

Coram bathscreens are simply the best designed bathscreens you can buy and we have added a further eight exciting new additions to the range.

# Premier Frameless Enclosures

These offer the minimal style of a wetroom panel with the added screening of a fully enclosed shower area.

## A new luxury range of the most stylish enclosures available

They are available in a range of shapes and sizes suitable for both left and right hand corners, or alcoves. All enclosures are 2m high and made from 8mm toughened safety glass, which complies with EN12150 and EN12600. Each door features beautifully designed chrome hinges for smooth, silent operation. They can either be fitted on Designer Slimline Showetrays, as shown, or on a suitable waterproof floor.

NEW

Premier Frameless Quadrant on a 900mm x 900mm Quadrant Designer Slimline Showertray.

### Glassguard Protection

Glassguard Protection is a permanent treatment applied to all Coram Premier Frameless doors/enclosures. Glassguard reduces cleaning, resists harmful soaps and prevents the build up of grime and limescale.

# Glass shower panels for walk-in enclosures

Glass shower panels allow you to create a superb, minimalist shower enclosure - a 'walk-in' style design, without the need for a shower door.

## Simple and easy to install with a choice of stylish fittings

Coram glass shower panels are available with a choice of stylish fitting systems. They can all be fitted in a corner or an alcove and are fully reversible for left or right hand installations. There is a choice of widths to provide different levels of screening, plus in a corner you also have the option of an additional 700mm end panel for maximum screening. Each panel is supplied with all the required fittings, including adjustable wall channels for out-of-true walls. The top support, which is supplied in a 1200mm length, can be easily cut to size during installation. All glass is toughened safety glass, which complies with EN12150 and EN12600. Shower panels can either be fitted on Designer Slimline Showetrays, as shown, or on a suitable waterproof floor.

## Satin etched glass and modesty panel options

Fully opaque etched satin glass or etched modesty panels are available as an optional extra.

Tube 800mm Shower Panel with satin glass on 1200mm x 800mm Designer Slimline Showertray.

Pillar 800mm Shower Panel with modesty panel 1 on 1200mm x 800mm Designer Slimline Showertray.

### Glassguard Protection

Glassguard Protection is a permanent treatment applied to all Coram Glass shower panels.
Glassguard reduces cleaning, resists harmful soaps and prevents the build up of grime and limescale.

## For the neatest possible finish

Coram glass shower panels can be simply silicone sealed direct to the showertray or tiled floor, but for the neatest possible finish we also offer two alternative options – a discrete acrylic seal, or a stylish polished chrome trim.

**NEW**

**NEW**

| Acrylic Seal Code D29915

**NEW**

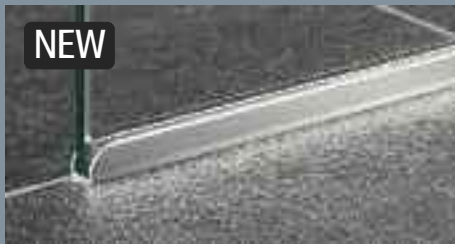

| Chrome Trim Code D29916

| Tube Curved Front and Side Panel.
| Finished in polished silver with plain glass on a Designer Slimline Showertray.

When used with a Coratech® showertray.
For full guarantee details see page 63.

## Tube Curved

Walk-in enclosures are becoming increasingly popular, but they vary greatly in size and how well they use the space. The Tube Curved however, provides the maximum showering area whilst using the minimum footprint. Innovative design means that this unique showertray and enclosure optimises the showering area and can be fitted in either left or right hand corners or an alcove.

| Nominal Tray Size 1500mm x 900mm | Finish | Plain Glass |
|---|---|---|
| Front Panel | Polished Silver | D15084 |
| Side Panel | Polished Silver | D15083 |
| Slimline Showertray | White | D15087 |
| Slimline Riser Kit | White | D85568 |
| Riser Showertray | White | D15085 |

Height: 1890mm with slimline showertray (can also be fitted on a riser showertray - for full range of showertrays see pages 48-53).

## Tube

With Tube the 8mm glass panel is held firmly in place by a precision engineered single tube and clamp attached to the top edge. The tube can be wall fixed as shown left, or ceiling fixed as shown below.

| Alternative ceiling fixing.

As a further alternative, panels are available with shorter, more discrete angled tube braces.

| Angled brace fixing.

### Everything you need in one pack

Both the Front Panel Pack and the End Panel Pack contain all the necessary fixtures and fittings. The 200mm Return Panel Pack comes complete with glass panel, 90° corner joint, closing cap and circular chrome foot. Wall channels allow for 20mm adjustment for out-of-true walls. Designer Slimline Showertrays will need to be ordered separately (see page 50).

### Glassguard Protection

Glassguard Protection is a permanent treatment applied to all Coram Glass shower panels. Glassguard reduces cleaning, resists harmful soaps and prevents the build up of grime and limescale.

**GLASSGUARD PROTECTED**

| 700mm | Chrome | D29883 | D29884 |

Height excluding showertray 1963mm (1900mm to top of glass).

†N.B. Maximum width of panels is 800mm when used on a 1200mm showertray in an alcove, or with an end panel in a corner, in order to allow a 400mm minimum gap for access. Please check that this is sufficient when planning your installation.

# Pillar

This unique design solution allows you to create a bold and extremely distinctive style for your shower area. The 8mm glass panel is supported by a beautifully engineered chrome pillar to create a truly stunning visual effect.

As an optional feature, Pillar also includes two adjustable wire baskets that are perfect for keeping shampoo, shower gel and sponges close to hand.

Pillar 800mm Shower Panel in plain glass on 1200mm x 800mm Designer Slimline Showertray.†

Can also be fitted in a corner with or without an end panel.†

## Everything you need in one pack

Both the Front Panel Pack and the End Panel Pack contain all the necessary fixtures and fittings. The 200mm Return Panel Pack comes complete with glass panel, 90° corner joint, closing cap and square chrome foot. Wall channels allow for 20mm adjustment for out-of-true walls. Designer Slimline Showertrays will need to be ordered separately (see page 50).

## Glassguard Protection

Glassguard Protection is a permanent treatment applied to all Coram Glass shower panels. Glassguard reduces cleaning, resists harmful soaps and prevents the build up of grime and limescale.

# Premier Enclosures

Premier offers the best value for professional installers and their customers. The most extensive range with the best features, which is the easiest to fit and seal; to provide the perfect installation.

Height: A generous 1830mm.

Pivot: Nylon bush in hinge for smooth and silent operation.

Wall Channel: Generous adjustment for out-of-true walls.

Glass: 6mm Toughened safety glass – complies with EN12150 and EN12600. All glass marked with European Standard to comply with Building Regulations.
The options of plain, overall etched satin glass, or a luxury etched modesty panel design (see page 20 for details).
All enclosures are power shower tested to BS6340.
All doors can be left or right hand opening.

Handle: Stylish, ergonomically designed, chromed metal handle.

Corner Post for easier installation and out-of-true adjustment in both directions.

Frame: High quality corrosion resistant aluminium in a choice of finishes - complies with BS6496.

## Designer Slimline Showertray

New acrylic capped resin Coratech® showertray, one of a complete range. The only showertray of its kind, as all sizes weigh less than 25kg, light enough to make installation a one person job.

Riser showertrays also available.

## Premier Side Panels

You can create a corner enclosure using any of the Premier doors with a side panel, which you need to purchase separately.

### Semi-Frameless Side Panels

| Nominal Tray Size | Finish | Plain Glass |

Finished in polished silver with plain glass on a Designer Slimline Showertray.

When used with a Coratech® showertray.
For full guarantee details see page 63.

## Premier Bow Front Sliding Door

A more stylish alternative to a traditional flat sliding door that offers the luxury of a large showering area, whilst still being suitable for smaller bathrooms. Although it is 850mm deep at the centre it narrows to only 550mm at the sides, which is ideal where space is restricted.

Height: 1890mm with slimline showertray (can also be fitted on a riser showertray - for full range of showertrays see pages 48-53). All Premier enclosures can be left or right hand opening.

**For Premier Bow Front you will need to order both a frame pack and a door pack.**

| Nominal Tray Size 1200mm x 850mm | Finish | Plain Glass |
|---|---|---|
| 1200mm Frame | Polished Silver | D25043 |
| 1200mm Door | Polished Silver | D25044 |

| Width Adjustment | 1200mm |
|---|---|
| Door in Alcove | 1181mm - 1217mm |
| Door with Side Panel | 1173mm - 1209mm |
| Side Panel | 522mm - 547mm side panel |

## Premier Crescent

The Crescent offers an extremely stylish corner option created from two beautifully curved sheets of glass. Available in a choice of three sizes from the ultimate luxury of the 1200mm wide model, to the compact 850mm model, which will fit into the smallest bathroom, whilst still providing an ample showering area.

**LEFT OR RIGHT HAND SHOWERTRAYS FOR 1200 CRESCENT**
Please note that when ordering a 1200 Crescent showertray you will need to select either left or right hand corner options. The image above shows a right hand corner.

| Nominal Tray Size | Finish | Plain Glass |
|---|---|---|
| 1200mm x 950mm | Polished Silver | D29828 |

## Premier Bespoke Enclosures made to order

The Coram Premier Pivot, Swing and Sliding Doors can be made to
create virtually any height, width and depth of enclosure.

In addition, Frameless Swing Doors, Inline Panels and Side Panels
can be shaped to fit where there are ceiling restrictions.

### Availability

All Coram Premier Bespoke Products can be supplied in a choice of
white or polished silver frame finish with plain glass. Once your order is
confirmed, you can expect delivery within 4-5 weeks.

For more information and costings please fax details to **01746 764140.**
Email: **bespoke@coram.co.uk**

Swing Doors, Inline Panels and Side Panels can have angled top profiles to fit under
stairs or in roof spaces etc.

| 868mm - 918mm |

All Premier Shower Enclosures are 1830mm in height.

# Optima Enclosures

Optima is designed specifically for housebuilders as a lower cost alternative to Premier. It is available in a smaller range and with less features than Premier, but it is still the best value alternative available.

Pivot: Nylon bush in hinge for smooth and silent operation.

Glass: 4mm Toughened safety glass – complies with EN12150 and EN12600. All glass marked with European Standard to comply with Building Regulations.

Frame: High quality corrosion resistant aluminium in a choice of finishes - complies with BS6496.

Wall Channel: Generous adjustment for out-of-true walls.

Handle: All metal chrome handle.

All enclosures are power shower tested to BS6340.
All doors can be left or right hand opening.

### Designer Slimline Showertray

New acrylic capped resin Coratech® showertray, one of a complete range. The only showertray of its kind, as all sizes weigh less than 25kg, light enough to make installation a one person job.

Riser showertrays also available.

## Optima sizes and styles to suit all applications

**IN AN ALCOVE**

All Coram Optima shower doors can be either left or right hand opening and can be used in an alcove.

**IN A CORNER**

With the addition of a side panel, a Coram Optima shower door can be used in a corner. All Coram Optima shower doors can be either left or right hand opening.

## Optima Finishes & Glass Options

Available in a choice of chrome or white frame finishes with plain glass. All Optima enclosures in chrome, with the exception of the Quadrant, are also available with the additional option of luxury satin glass or a luxury modesty panel.

| Chrome | White | Satin glass | Modesty 1 |

## Optima Side Panels

You can create a corner enclosure using any of the Optima doors with a side panel, which you need to purchase separately.

### PLAIN GLASS

# Optima Crescent

The Crescent offers an extremely stylish corner option created from two beautifully curved sheets of glass.

Height: 1860mm with slimline showertray (can also be fitted on a riser showertray - for full range of showertrays see pages 48-53).
All Premier enclosures can be left or right hand opening.

**For Optima Crescent you will need to order both a frame pack and a door pack.**

| Nominal Tray Size 850mm | Finish | Plain Glass |
|---|---|---|
| Frame Pack | White | D29742 |

| Slimline Riser Kit | White | D85364 |

| Width Adjustment | 850mm |
|---|---|
| | 825mm - 850mm |

# Optima Bow Front Sliding Door

A more stylish alternative to a traditional flat sliding door that offers the luxury of a large showering area, whilst still being suitable for smaller bathrooms. Although it is 850mm deep at the centre it narrows to only 550mm at the sides, which is ideal where space is restricted.

Height: 1860mm with slimline showertray (can also be fitted on a riser showertray - for full range of showertrays see pages 48-53).
All Premier enclosures can be left or right hand opening.

**For Optima Bow Front you will need to order both a frame pack and a door pack.**

# CORAM Coratech® Resin Showertrays

Coratech® is a **revolutionary resin formulation** developed by Coram for use in their showertrays. It has all the strength of traditional 'stone resin' showertrays but without the excessive weight.

**FASTER & EASIER TO FIT THAN ANY OTHER SHOWERTRAY**

**ALL SIZES LESS THAN 25kg**

## A showertray doesn't need to be heavy to stop it moving

We all know that even the slightest movement of a showertray after installation will lead to expensive water leaks. That's why Coram's Coratech® trays are absolutely rigid and designed to be fixed in a way which will ensure that there can be no possible movement. The riser trays have adjustable feet, which can be securely screwed to the floor, whilst the slimline trays are bonded to the floor by large fixing pads and the entire rim of the tray.

## Why risk injury by lifting trays that are unnecessarily heavy?

The Health and Safety Executive (HSE) recommends that the maximum that is safe for one person to lift unassisted is 25kgs. Most stone resin trays are above this limit and so should be lifted by two people.

Coram's entire range of trays on the other hand have all been designed to be below 25kgs, so the entire range is 'safe' for one person to lift and install.

**watertight LIFETIME GUARANTEE**

When Coram Showertrays and Enclosures are used together their performance is so unbeatable and reliable we offer a watertight lifetime guarantee. For full details of guarantee see page 63.

### Coram Coratech® Showertray weights
All 'safely' under 25kg

## Unique easy-fit features allow you to install either a Coram Riser Showertray or a Designer Slimline Showertray with a riser kit, in less than 20 minutes.

### The most sturdy legs and feet

- On Slimline Showertrays, legs are easily screw fixed to the factory fitted mounting plates. On Riser Showertrays, legs are factory fitted.
- Hexagonal feet simply screw in and can be easily adjusted by hand to level the tray.
- Angled screw holes make the feet easy to fix in position.

### Rigid easy to trim panels

Panels are timber backed to make them completely rigid and easy to trim to size.

### The fastest, easiest and most secure panel fixing

- The panels are attached with specially designed push-on spring clips.

**Coram Showertrays**

**Competitor showertrays**

These have more components, which are more difficult to fit

Coram flush-fit easily removeable rigid panels
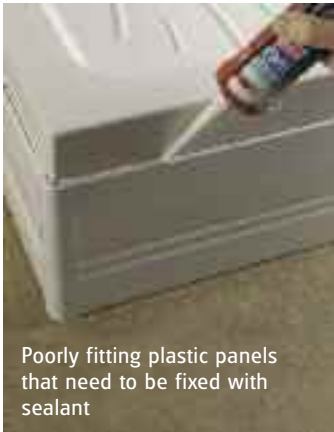

Poorly fitting plastic panels that need to be fixed with sealant

Coram rigid panels

## Specifications

Hard wearing acrylic surface with the strength and rigidity of a resin base.

Unique Coratech® resin.

Slimline Showertrays have easy screw fix legs. Riser Showertrays have factory fitted legs.

Detachable push-fit rigid panels.

Easy to adjust threaded feet with angled screw fixings.

# CORAM Designer Slimline Showertrays

## The most stylish showertrays available

Designer Slimline Showertrays are by far the most stylish available. They are just 60mm high and each model has been carefully sculpted with subtle angled sides and a shallow sloping circular or elliptical recess - superb design features which provide truly efficient drainage.

Designer Slimline Showertray on a plinth

Riser Showertrays

waterlight
LIFETIME
GUARANTEE

For site conditions, such as solid floors, where the plumbing connections cannot be recessed into the floor, a tiled plinth can be constructed to conceal the plumbing. The Designer Slimline Showertray can then be installed on top of the plinth.

A riser kit offers an easier, lower cost alternative to building a plinth, because the plumbing connections are concealed beneath the showertray, which offers easy access via removable panels.

When Coram Showertrays and Enclosures are used together their performance is so unbeatable and reliable we offer a watertight lifetime guarantee. For full details of guarantee see page 63.

## For alcoves and corners Height to rim 60mm (height to rim with riser kit 185mm)

All Coram products are designed and built in Britain to suit British site requirements

# Bathscreens

Coram bathscreens are simply the best designed bathscreens you can buy.

Unique patented levelling system.

High quality corrosion resistant aluminium frame complies with BS6496.

Beautifully finished chrome designer hinges

Toughened safety glass to EN12150 & EN12600 in plain glass.
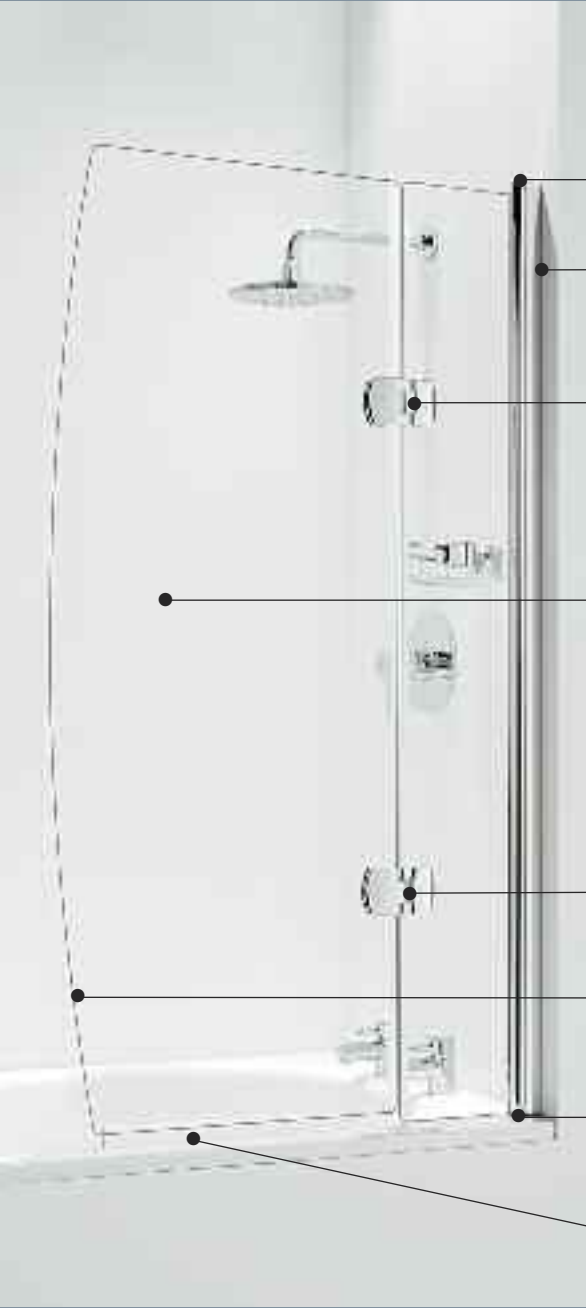

All glass marked with European Standard to comply with Building Regulations.

Nylon bush in hinge for smooth silent operation.

Glass edges are smoothed and rounded.

Unique patented levelling system.

Push-on, transparent polymer seal that can be easily removed for cleaning.

Hinged D Compact with panel.
Finished in chrome with plain glass.

## Choosing the right kind of bath for your bathscreen

Baths must have a flat rim and should be installed with top edge horizontal.

Any water that collects around the taps should then drain into the bath.

Baths must not have raised handles or soap recesses that would prevent the bath screen from providing an effective seal with the rim of the bath.

Failure to comply with the above may cause your bathscreen to leak.

The Bathscreen should be fitted so that the seal is in contact with the inside edge of the bath as shown below.

To ensure it is completely watertight, the seal also features a deflector on the inside edge so that any water from above will drip straight into the bath and not collect on the rim.

## Unique levelling system makes them faster and easier to adjust than any other bathscreens

A single screw can be adjusted to ensure that it fits perfectly in line with the rim of the bath.

This unique levelling system also provides longer lasting benefits. If, for any reason in the future, the screen becomes slightly out of fit, you can simply remove the push-fit screw cap and re-adjust it.

This product is protected by UK Patent No. 0403656.2

Unique, patented levelling system.

You can swing all bathscreens out for easy cleaning.

Four panel.
Finished in white with plain glass.

Five panel.
Finished in chrome with plain glass.

## Folding bathscreens

For a neat and flexible solution, these are the most practical folding screens you can buy. Full-length magnetic seals ensure the screen remains rigid when in use, whilst allowing you to simply fold it away when not needed.

### Four Panel Folding

| Width Folded | Open | Finish | Plain Glass |
|---|---|---|---|
| 245mm | 865mm | Chrome | D25396 |

Unique 'slide and lock' mechanism keeps the screen rigidly in place and perfectly level when fully extended.

Discreet chrome handle allows you to slide the screen without finger marking the glass.

Shower Curtain Screen.
Finished in chrome with plain glass.

## Frameless Sliding Bathscreen

A new extremely stylish modern minimalist design, in 5mm safety glass, which offers a host of practical features.

Unlike other sliding screens that tend to sag when extended due to the weight of the glass, Coram's ingenious 'slide and lock' mechanism* keeps the screen rigidly in place and perfectly level when fully extended - providing the best seal with the edge of your bath. It also eliminates any risk of the screen sliding back whilst in use.

The screen slides out easily on smooth action runners and simply clicks into place. It can be extended and pushed back to the wall, without leaving any finger marks, thanks to the discreet chrome handle. Fully extended it measures 1065mm, making it Coram's largest screen, which provides even greater protection from shower spray. When not in use and pushed back neatly to the wall it takes up only 650mm - offering greater access to your bath.

* This product is protected by patent pending GB 2460873.

| Width | | Finish | Plain Glass |
|---|---|---|---|
| Open | Closed | | |
| 1065mm | 650mm | Chrome | D25398 |

All Bathscreens are 1400mm in height.

## Shower Curtain Screen

This is simply a fixed short panel, for use together with a shower curtain. It can be silicone sealed where it fits to the bath, in order to provide effective screening where a shower curtain cannot, because it falls within the curve of the bath.

| Width | Finish | Plain Glass |
|---|---|---|
| 250mm | Chrome | D25390 |
| 250mm | White | D25391 |

The Shower Curtain Screen is 1400mm in height.

watertight
LIFETIME
GUARANTEE

Coram Showers Ltd guarantees its range of enclosures against faulty materials or manufacture for a lifetime, provided they have been installed on a Coram Coratech® showertray and are used and maintained in accordance with the manufacturer's instructions (guarantee excludes seals and magnets). 'Lifetime' means during the period of use by the original user. When Coram enclosures and Coratech® showertrays are used with any other showertray or enclosure the guarantee period is limited to ten (10) years. Shower panels and bathscreens are guaranteed for 10 years. This guarantee is in addition to your statutory rights.

### PRICES

All prices are recommended retail prices shown both inclusive and exclusive of VAT.

### SITE CONDITIONS

**Your Coram shower enclosure will give you years of reliable service if the following are observed:**

The shower control and sprayhead should not be positioned so that the shower sprays directly onto the door of the enclosure.

It is recommended that the sprayhead is sited as shown, which will make the shower easier to use and ensure watertight performance.

Outward opening doors may drip water onto the floor. Therefore ensure the floor covering immediately outside the enclosure will not be affected by water.

**Your Coram bathscreen will give you years of reliable service if the following are observed:**

Baths must have a flat rim and should be installed with top edge horizontal. Any water that collects around the taps should then drain into the bath.

FAILURE TO COMPLY WITH THE ABOVE MAY CAUSE THE SHOWER ENCLOSURE OR BATHSCREEN TO LEAK.

All Coram products are designed and built in Britain to suit British site requirements
