ENJOY GROHE KITCHEN EVERY DAY

GROHE is cooking up a storm in the kitchen. With designs to match all styles of interior, all installations and all budgets, our enticing portfolio of kitchen taps will exceed your expectations.

In the same way a great meal combines beautiful presentation, fresh ingredients and nutritional value; our taps are the perfect balance of quality, technology and design. Using only the finest materials and the latest industry-leading technologies, GROHE

kitchen taps deliver years of reliable performance – day in, day out.

An appetising mix of product features makes light work of daily tasks and will impress even the most reluctant home chefs, while a generous seasoning of practical features such as pull-out sprays and mousseur, low-pressure models and taps for pre-window installation, ensures all of your needs are covered.

With their fusion of award-winning design and innovative functionality, our Premium Lifestyle Collections will enamour passionate chefs who settle for nothing less than perfection. Our new K7 kitchen tap range introduces professional-level styling and features to the domestic kitchen, with its modular concept and choice of professional spray, pull-out spray or side spray.

GROHE Performance Kitchen Lines offer a wide choice of spout heights and product features, making them the ideal choice for family kitchens. Coordinating ranges of bathroom mixers and fittings are also available to create a cohesive look throughout your home.

Our Kitchen Water Systems, GROHE Blue® and GROHE Red™, are more akin to kitchen appliances than taps and position GROHE at the forefront of water innovation in the kitchen. The two systems introduce a new level of convenience and functionality by delivering ready-to-use water straight from the kitchen taps. Filtered and chilled or kettle hot. No waiting, just instant refreshment on demand.

For functionality, innovative features and award-winning design, GROHE is the connoisseur's choice, every time.

David J. Haines

THE GROHE KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen tap. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen taps.

GROHE's promise to you is that you will have it easy. For a lifetime.

High-quality materials, outstanding design and innovative technologies ensure that your GROHE taps will last a lifetime. Our mixer levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate even with greasy hands.

Intensive daily use leaves its traces. Normally. However, GROHE StarLight® chrome resists scratches and ensures a lifelong glossy finish. And if you like the look of stainless steel, you'll love our SuperSteel® finish. For professional-level endurance choose RealSteel®, made from solid stainless steel. However it's not just with lifelong, perfect function that GROHE impresses in the kitchen, but also with form and finishes that please the senses.

True style shines through in daily life.

From modern, Cosmopolitan single-lever mixers, through our timeless Contemporary lines to the Authentic style two-handle mixers you will find exactly the right tap to match your aesthetic ideals. Countless designs and spout heights give you huge scope when choosing your kitchen furniture and sink; while pre-window models, integrated dishwasher shut-off valves and low pressure variants ensure there's a model to meet all of your installation requirements.

Professional sprays for home use.

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature when rinsing salad leaves or washing greasy pans. Even with intensive use of the tap. And you will be amazed at the adaptability and flexibility of our side and professional sprays.

Tap water takes its place at the table.

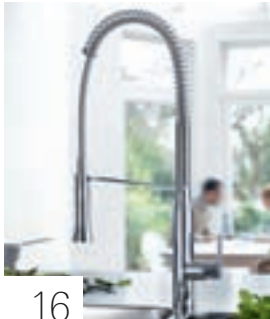

GROHE serves you top-quality drinking water directly from the faucet – from cold to kettle hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. The GROHE Blue® Pure filter system is perfect for those who like still, uncooled water. GROHE Red™ delivers kettle hot water directly from your tap, without the wait. For a quick pasta meal, for a hungry baby, for a coffee now and again and so much more.

HANDS ON GROHE KITCHEN TECHNOLOGY

Ongoing investment in research and development allows us to turn world-leading technologies for bathrooms and kitchens into reality. Our products have been created to last a lifetime, to be both easy and intuitive to operate and to make the use of water a pleasure.

GROHE SilkMove®

Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

GROHE StarLight®

A radiant chrome finish that resists soiling and tarnishing for enduring pristine looks.

GROHE EcoJoy™

Integrated water-saving technology reduces water and energy consumption without compromising product enjoyment.

GROHE CoolTouch®

No risk of scalding yourself on a hot chrome surface.

GROHE Enhanced Water™

Superior-quality water direct from the kitchen faucet – saving time, money and the environment.

HANDS ON GROHE KITCHEN FEATURES

Accommodating your every wish and desire, GROHE water systems and kitchen mixers include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

HandCrafted

These exquisite pieces are refined and hand-polished by skilled technician.

ExtensiveRange

A wide choice of designs to meet your functional and installation needs.

RealSteel

Made of solid stainless steel – a robust material with anti-bacterial properties.

Pull-out Mousseur

Increases the operating radius of your tap.

Pull-out Spray

Increases operating radius of the tap and offers different sprays.

ProfessionalSpray

Features a 360° spring arm and easy switching between the spray and mousseur.

ChildLock

Integrated safety mechanism prevents unintentional opening by young children.

SideSpray

The spray is mounted to the side of the faucet.

SpeedClean

Remove lime scale with a single wipe.

SmoothTurn

Extra smooth movement of all swivel spouts for easy handling.

SwivelStop

Limited turn angle prevents flooding.

ComfortHeight

Height of the spout allows easy filling of large pots.

GROHE PREMIUM LIFESTYLE COLLECTIONS

GROHE PREMIUM LIFESTYLE COLLECTIONS

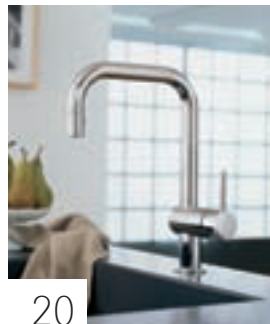

GROHE treats the kitchen with the respect it deserves. It's so much more than just a workspace. It's where you spend most of your time, it's the heart and soul of your home and it's often furnished to a correspondingly high standard. That's why GROHE kitchen mixers deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty. Home chefs who demand the same functionality as professionals sum up the characteristics of GROHE kitchen mixers in just one word: perfect.

GROHE K7

Professional looks and professional-level features – the K7 collection of kitchen mixers has it all. A fusion of crisp, architectural styling and practical attributes, K7 will appeal to culinary experts who settle for nothing less than the best.

An arched coil guides the extractable hose, which combines a mousseur with a wide spray, while the lozenge-shaped lever – featuring GROHE SilkMove® technology – gives precise control of the water flow and temperature. A choice of two surface finishes gives the mixers two distinctly different looks. GROHE StarLight® chrome lends an air of elegant modernity to the design, while SuperSteel embodies the strength and pure luxury of the range. Ensuring compatibility with all styles of sink and kitchen layout, the range features a comprehensive choice of single-hole and two-hole mixers with or without an integrated spray. For added convenience, models with an independent hand-held spray are also available.

GROHE K7

When GROHE wanted to create a range of beautiful faucets that also delivered the uncompromising performance of the commercial kitchen they enlisted the help of professional chefs. The result was K7, a modular range of one-hole and two-hole mixers with regular and professional side sprays that offers architects total control and flexibility.

GROHE MINTA

Modern architectural spaces command attention to detail. All elements must be considered to ensure that form and function achieve a harmonious balance. Available with a choice of three graphic spout shapes: U-shape, C-shape and L-shape; Minta fuses the visual clarity of its slender swivel spout with the convenience of a pull-out rinsing spray.

The elegant lever handle benefits from GROHE SilkMove® technology – for smooth operation and fingertip control, while GROHE StarLight® chrome guarantees a pristine finish for years to come.

GROHE ZEDRA

A contemporary kitchen also makes the time we spend in it more enjoyable. It has to run like clockwork so that you can enjoy your time in the kitchen and still have time for other important tasks. GROHE Zedra is perfect in this respect.

GROHE ZEDRA

Zedra combines contemporary design and maximum functionality with exemplary reliability for rigorous everyday use. The body flows elegantly into the wide swivel spout in full harmony with the GROHE design aesthetic. The extensive range offers a lot of variety: choose between versions with a pull-out spray that extends the operating radius of each model.

Limescale on the flexible pull-out sprays can be easily removed thanks to the SpeedClean nozzles. Zedra comes in two high-quality finishes: our high-gloss GROHE StarLight® chrome or GROHE SuperSteel, our luxurious stainless steel-effect finish. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement.

GROHE K4

Professional chefs are used to having specialists at their disposal for all tasks. From the saucier to the pâtissier, they can call on a perfectly coordinated team. It's actually no different in your kitchen. It's just that your team is much more compact: a single multi-tasker, the GROHE K4 kitchen mixer.

GROHE K4

You can easily meet all the requirements in your kitchen with the K4 series. The gently curved shape with 360° swivel spout and a pull-out spray with SpeedClean® for easy removal of limescale from water nozzles guarantee reliable and convenient operation - ensuring more freedom in your daily kitchen tasks.

From a technical point of view, the GROHE K4 impresses with true robustness. GROHE SilkMove® guarantees smooth movement, even after years of hard use. And the GROHE StarLight® chrome finish will keep your taps shining like new for years to come.

GROHE SilkMove®

GROHE StarLight®

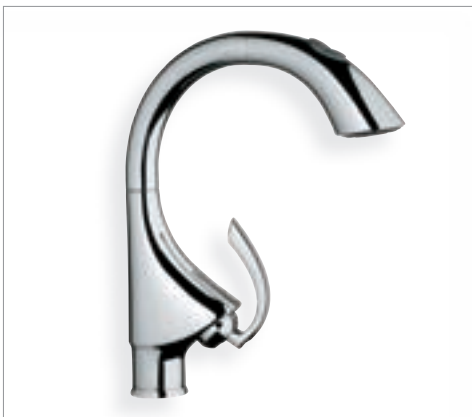

Colour options:

● 000 | StarLight Chrome

Classic dishes are just as delicious today as a hundred years ago. This will not change in the next hundred years either, since good taste is as enduring as the design of the GROHE Atrio range. The individual look of the elegant two-handle mixer with arched spout or single-lever sink mixer with L-shaped spout lends GROHE Atrio a timeless quality that will add a refined edge to any kitchen style. The Bauhaus-influenced design with stepped escutcheon, slim mixer body and a tubular spout can be carried on throughout the house, thanks to a coordinating collection of bathroom mixers.

Also timeless is Atrio's glossy finish. GROHE StarLight® chrome provides lasting protection against dirt and scratches. Also enduring is the high ease of operation afforded by the smooth GROHE SilkMove® technology.

GROHE EURODISC COSMOPOLITAN

In the same way that a great meal is a result of carefully balancing flavours, textures and nutrition, your kitchen mixer should be a balanced combination of design and practical features. Well considered details that work for you and the installation requirements of your kitchen. Fortunately, Eurodisc Cosmopolitan offers enough choice and design nutrition to satisfy the most demanding chefs.

GROHE EURODISC COSMOPOLITAN

In developing Eurodisc Cosmopolitan, we thought about chefs who are not so easily satisfied. These discerning individuals will recognise the attention to detail and nuances. The high-gloss chrome finish elegantly emphasises the tapered edges. You can expect the same perfection in the functionality of the mixer as in the form.

You can choose between three different spout heights, different versions and countless installation options. Whatever choice you make, you are guaranteed an attractive appearance and easy operation over the lifetime of the mixer, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.

GROHE CONCETTO

Like the finest desserts, Concetto is a visual feast for the eyes on the outside and a tempting delight on the inside. Whether it's the choice of spout shapes or the mix of practical features, which delight at every turn, the collection mixes all the essential ingredients required to add the finishing touch to your kitchen.

GROHE CONCETTO

Concetto combines stylish minimalist design with superior ergonomics to reflect the core values of the Cosmopolitan design. Consisting of a series of cylinders, an arched or medium height spout rises elegantly from the sink. Its purist beauty is highlighted by the high-gloss GROHE StarLight® chrome finish which repels dirt and prevents tarnishing. GROHE SilkMove® technology enables fingertip control of water flow and temperature. And all with an unbeatable price/performance ratio.

GROHE EUROSTYLE COSMOPOLITAN

No two kitchens are the same. What works in one environment is not necessarily right for another, which is why we offer kitchen mixers with different spout heights and with or without pull-out sprays. And this level of choice is just one of the reasons why Eurostyle Cosmopolitan is the perfect addition to kitchens with style and Cosmopolitan flair.

GROHE EUROSTYLE COSMOPOLITAN

Eurostyle Cosmopolitan will play a leading role in your kitchen – and not just in terms of functionality. With a choice of three spout heights it also sets the tone for the design of your kitchen.

Two unique GROHE technologies, GROHE SilkMove® and GROHE StarLight®, guarantee years of smooth operation and a durable glossy finish. With its wide range of different models, the collection will meet all of your needs, whatever they may be.

Eurostyle Cosmopolitan also complements the architecture of your kitchen and leaves nothing to be desired.

GROHE EUROSMART COSMOPOLITAN

In an over-complicated world, sometimes it's nice to keep things simple. Freshly-cut crudités dipped in aioli or a bowl of strawberries with a splash of balsamic vinegar – with fine ingredients a 'less is more' approach works best. And this is the approach we took when designing Eurosmart Cosmopolitan, focussing only on the essentials and giving them a fresh Cosmopolitan twist.

GROHE EUROS MART COSMOPOLITAN

The new Eurosmart Cosmopolitan collection of kitchen mixers combines the clean, geometric lines of modern architecture with durable technology. They offer an impressive balance of modern aesthetics and excellent ergonomics. The swivel spout is convenient and easy to use – the ideal complement to any sink.

Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE EcoJoy™ version of the Eurosmart Cosmopolitan kitchen mixer effortlessly saves water and energy. GROHE EcoJoy™ reduces the maximum flow rate to 5.8 litres per minute – although it will feel like much more. And all with an unbeatable price/performance ratio.

GROHE WATER SYSTEMS

When you want more from your kitchen tap than hot and cold water choose a GROHE water system. GROHE Blue® and GROHE Red™ go beyond regular mixers to introduce new features, functionality and convenience to your kitchen. Kettle hot water on demand, or a glass of chilled and sparkling water to refresh and re-hydrate, our water systems save you precious minutes every day.

GROHE BLUE®

GROHE RED™

GROHE WATER SYSTEMS

Quenching your thirst, re-hydrating your body, preparing meals and rinsing dishes - water is essential not only for our health and well-being but also for almost everything we do in the kitchen. As experts in water enjoyment, we want you to enjoy the time you spend in your kitchen by making everything as convenient as possible. Filtered and chilled or kettle hot, our water systems supply water à la carte direct from the kitchen tap – offering real innovations and unique features designed to save you time and money.

Cool technology. Instant refreshment.

Who can say no to the convenience of freshly-filtered water on tap? With GROHE Blue®, water is more palatable, readily available and, depending on which model you select, even offers the choice of still or two levels of carbonation. And once the water has been filtered it never comes into contact with any metal parts or the regular unfiltered water. Built-in technology takes the guesswork out of when to change the filter - when the filter capacity drops below 10 percent the LED display on the handle lets you know it's time to order a new one.

Hot features. More convenience.

A mid-morning herbal tea or a quick bite to eat? When time is of the essence, GROHE Red™ is on hand, ready to deliver kettle hot water straight from the tap. Two sizes ensure everyone can find their perfect match, with the larger Duo model replacing a standard mixer with one that can supply both mixed water and kettle water. And in case you're worried about the safety of younger family members, the child lock feature helps to prevent curious little hands from being able to open the tap.

GROHE Red™

GROHE BLUE®

Every day, we all benefit from and enjoy the luxury of drinking water straight from the kitchen tap. Most of us are happy using it for cooking and making cups of tea and coffee, but when it comes to drinking a glass of water, we are often put off by the taste and reach for a bottle of mineral water. Hardly convenient and not exactly sustainable either. Invest in a GROHE Blue® water system and you'll have instant access to a constant supply of freshly-filtered, great-tasting water.

GROHE BLUE®

More taste

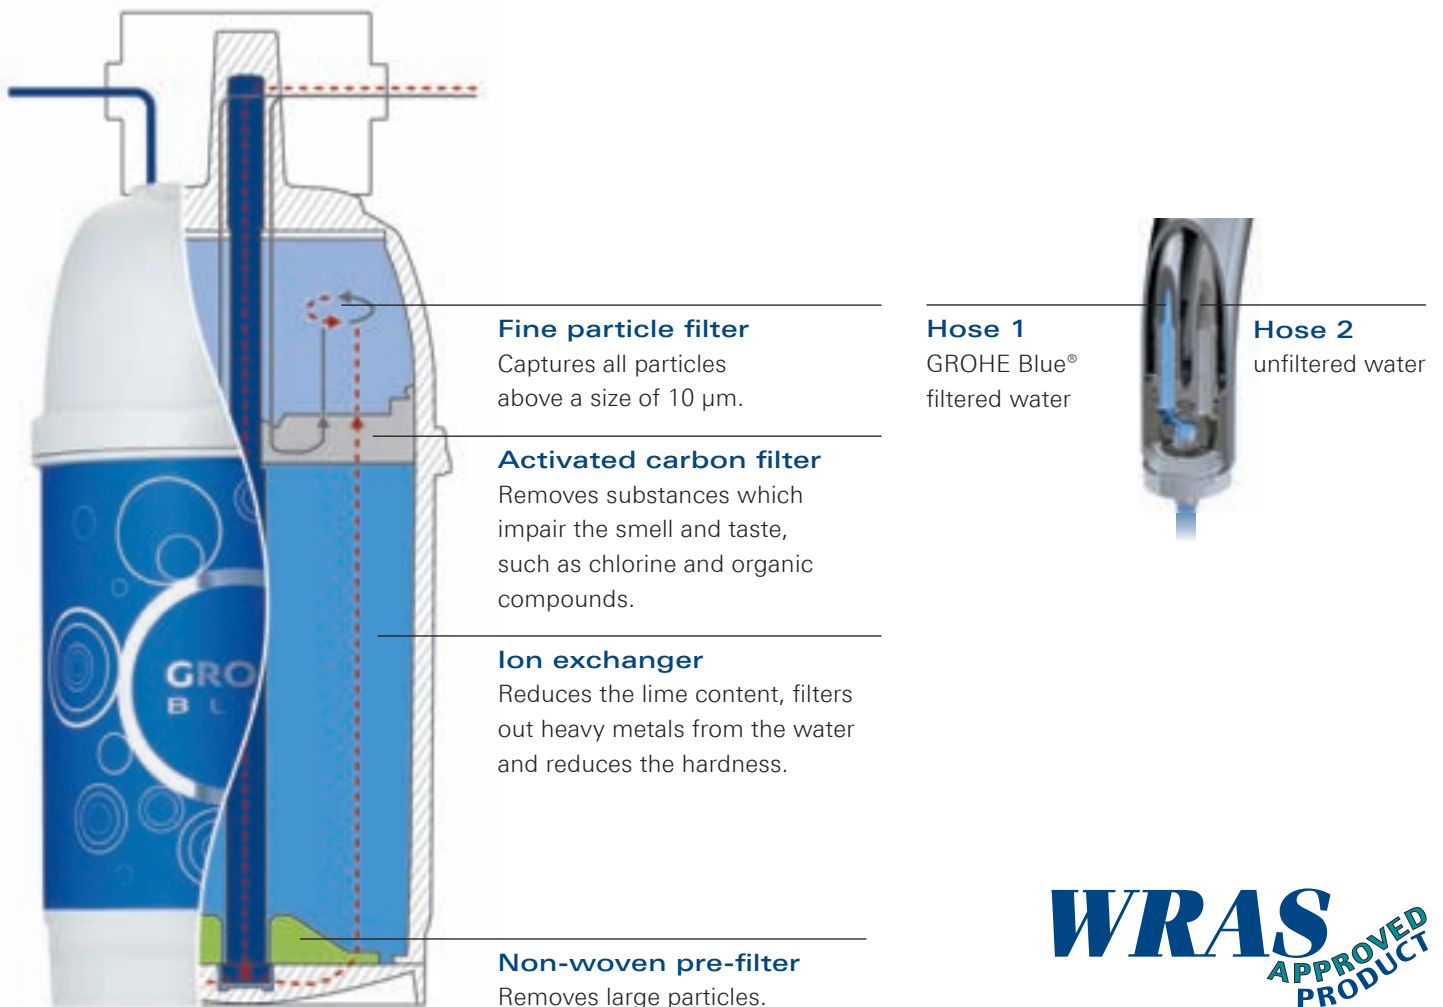

GROHE Blue® premium kitchen mixers feature a revolutionary high-performance filter that removes the impurities that affect the taste and odour of ordinary tap water – heavy metals, chlorine and limescale – and so delivers the clean, refreshing taste that is expected from bottled mineral water. Two separate internal waterways – one for filtered water and the other for unfiltered water – and an innovative mousseur ensure that once the water has been filtered it never comes into contact with anything that may taint its taste.

More convenience

The unique GROHE Blue® water systems deliver fresh, great-tasting filtered water from the convenience of your kitchen mixer whenever you want it – 24 hours a day, 7 days a week. An LED display on the handle indicates when the water filter needs to be changed. The light flashes when the filter capacity is less than 10%. The filter lasts up to 12 months, has a capacity of 600 litres and can be adjusted to the hardness of the water. The GROHE Blue® Pure Starter Kit comprises the tap, an under-sink filter and a GROHE Blue® glass carafe whose elegant form reflects the purity of the water.

Less environmental impact

GROHE Blue® combines convenience and a healthy lifestyle in one environmentally-conscious package. Compared to the pollution and energy consumption caused by filling and transporting bottled mineral water, filtering tap water has a negligible environmental impact. GROHE Blue® saves resources and money, since seven litres of water are needed to put just one litre of bottled water on a supermarket shelf. Energy is also saved, as heavy bottles no longer need to be carried home and time and resources spent recycling them.

GROHE BLUE® CHILLED & SPARKLING ULTIMATE REFRESHMENT

Still, lightly sparkling or sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer mixer with a high-performance filter, cooler and carbonator – and is as easy to use as an ordinary kitchen tap. The right lever on the mixer is used to mix hot and cold tap water as usual. The left rotary knob with integrated coloured LED display regulates the carbonic acid content of the filtered and cooled water. The light flashes when the filter capacity is less than 10%.

The carbonator integrated in the built-in box adds especially fine bubbles of carbonic acid to the filtered and cooled water to produce lightly sparkling or sparkling water according to taste.

GROHE BLUE® PURE PURE ENJOYMENT

GROHE Blue® Pure is the alternative solution for people who prefer the natural taste of still water. Using the unique GROHE Blue® filter technology it turns ordinary tap water into fresh water, removing all of the substances that can impair its taste. Finished in GROHE StarLight® chrome, the faucet has separate internal waterways – one for filtered water and the other for unfiltered water.

This means that people who prefer ambient, still water without any carbonation at all do not have to miss out on the great taste of water from a GROHE Blue® water system. The GROHE Blue® filter cartridge can purify up to 600 litres of water and can be replaced in just a few steps. It delivers a pure, refreshing taste experience with no aftertaste of heavy metals, limescale or chlorine.

GROHE RED™

FILTERED KETTLE HOT WATER!

When you're looking forward to a nice cup of tea on a cold and damp winter's day. When you need pasta in tomato sauce this instant. When grease and gravy have become one congealed mess in a pan. When you need to blanch delicate beans.

With GROHE Red™ you can draw filtered kettle hot water directly from the tap without having to wait. Easy. Economical. Efficient.

- Making tea and coffee with great tasting filtered water
- Blanching vegetables
- Removing the skin from fruit and tomatoes
- Washing dirty pots and pans
- Cleaning knives and cutting boards
- Making instant soups

GROHE Red™ is WRAS approved. Compliant with UK building regulations, ideal for retrofit and new builds.

GROHE Red™
Filtered kettle hot water

Hot and cold
mixed water.

IS THIS THE END OF THE KETTLE

YOU SAVE TIME AND SPACE.

We don't just want to make your life more convenient, we also want to give you more space in the kitchen: GROHE Red™ consists of just a fitting, 4-stage filter and a boiler which can be installed unobtrusively and compactly under any standard sink, making water boilers and kettles a thing of the past.

- **GROHE Red™ Duo fitting**
for hot and cold mixed water as well as kettle hot water at any time.
- **GROHE Red™ Mono fitting**
Exclusively for kettle hot water without the wait.
- **GROHE Red™ 4-litre boiler**
34 x 20 x 24 cm – for up to three litres of filtered kettle hot water.
- **GROHE 4-Stage filter**
11 x 25 cm - capacity: 600 litres
Equipped with an integrated 4 stage high performance filtration system: No other hot water tap currently on the market incorporates this innovative filtering process! The GROHE Red™ tap filters out heavy metals such as lead and copper, removes substances which impair the smell and taste, such as chlorine and organic compounds– so you are left with fresh filtered water for that great tasting cup of tea or coffee.
- Chrome or Supersteel finishes on all models
- Filter system reduces the buildup of lime scale ensuring better taste while the electronic counter highlights when the filter requires changing, maximizing both the boiler and filter life
- GROHE Red™ Duo and Mono can be fitted new or respectively and requires just the standard 35 mm tap hole.

Colour options: ● 000 | StarLight Chrome ● DC0 | SuperSteel

HOT WATER, NOT HOT TAPS.

GROHE COOLTOUCH® FOR LITTLE FINGERS.

The GROHE CoolTouch® technology insulates the fitting so well that you can touch it without any risk at all. Even for those little fingers which sometimes touch things they shouldn't. Our engineers have found a solution to childhood curiosity and grown-up absentmindedness.

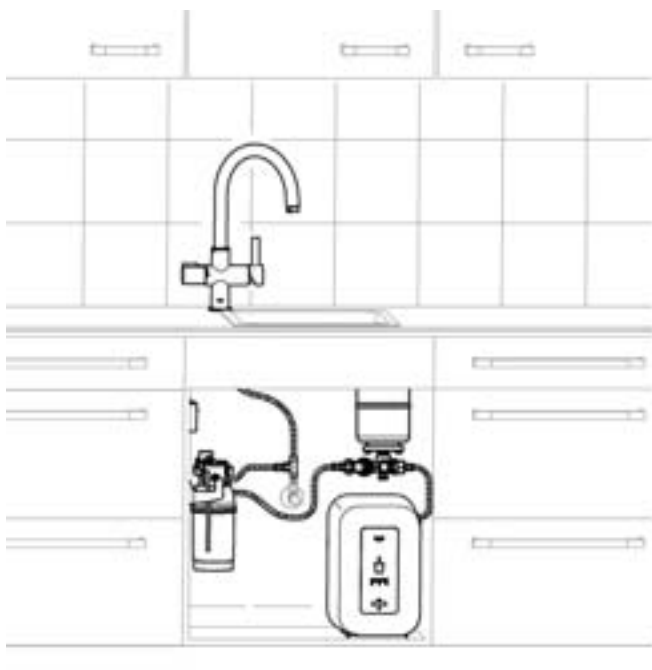

ChildLock does not rule out the possibility of scalding from 99 °C water, but it does make it practically impossible: for the kettle hot water to flow, you need to first pull and then turn the left handle. The child-friendliness of the fitting has been independently tested and certified.

GROHE Red™ for you and the environment.

GROHE Red™ proves that convenience and concern for the environment do not have to be mutually exclusive. Unlike with a water boiler or hot water on a hob, with our innovation you only draw as much water as you need. This saves water, energy and even costs: No overfilling the kettle wasting space or compromising on convenience in kitchen design.

Peace of mind with our GROHE German engineering and five year guarantee.

ZERTIFIKAT

Das **ivm** Institut Verpackungsmarktforschung
akkreditiert als Zertifizierungsstelle nach DIN EN 45011 vom

bestätigt hiermit, dass das Testobjekt
