## Select 307 XLS

The superb new 307 XLS has a 7 day setting over 3 totally separate channels e.g. hot water and two individual heating zones.

Designed for use with fully pumped central heating systems using three separate 2 port zone valves. Attractive, modern design fits in with all modern house design.

Building Regulations requires properties above 150 sq m floor space to have two individual heating zones, the 307 XLS is the perfect solution.

The 307XLS 3 Channel Programmer is the perfect solution to supply control which allows separation of your; upstairs or conservatory or underfloor heating arrangements. It's multi-channel capabilities also facilitates separate time programming for living and sleeping areas throughout your home.

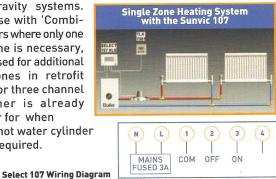

## Select 107 XLS

The Select 107XLS 'All-in-One' programmer also has 7 day, 5/2 day and 24 hour programming options and boasts the option for

use on gravity systems. Ideal for use with 'Combination Boilers where only one heating zone is necessary, or can be used for additional heating zones in retrofit with a two or three channel programmer is already installed or for when additional hot water cylinder control is required.

For all the necessary essentials and auxiliary products relating to the Unique Select Range please see pages 2 and 3 for PlugIt and page 16 for our superb Heating Packs selection.
