

Vantage

The Dudley Vantage is the UK's market-leading concealed cistern.

Designed specifically for use in bathroom furniture, the revolutionary Vantage comes with front and top access panels as standard. The Vantage can be installed into furniture without having to cut unsightly and unhygienic inspection holes into the vanity top. This leaves an aesthetically pleasing and easy to clean surface.

The 6/4 litre dualflush model quickly converts to 5/3 or 4/2.6 litre dualflush. The Vantage supports initiatives such as **the Code for Sustainable Homes and the BREEAM Scheme**.

A 6 litre single flush option can also be supplied. The Vantage is pneumatically operated and comes with a 73.5mm or 51mm diameter push button.

Measuring 460mm (w) x 369mm (h) x 131mm (d), the Vantage fits into furniture units as small as 500mm (w) x 200mm (d) x 800mm (h) when used with BS pans.

It comes factory assembled and with a host of time-saving features to minimise installation time and costs.

The cistern's internal components are WRAS approved and have passed 200,000 cycle tests.

The cistern can also be operated by the Dudley Electroflo electronic flushing system or Dudley Oyster and Pebble push plates. The Dudley Panfan extracts odours and 99% of micro-organisms to leave bathrooms beautifully fresh. These options are detailed on pages 8-9.

Technical details for the Vantage are provided on page 22.
