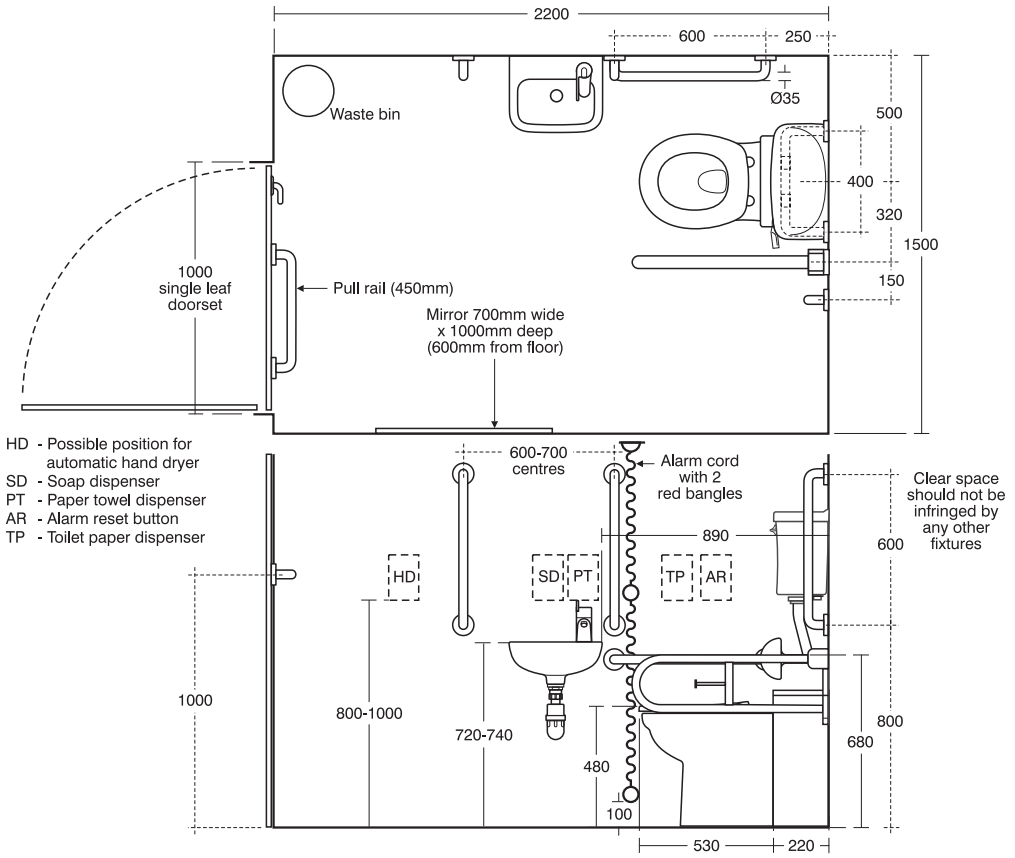
special care
doc m standard LH or RH

Doc M pack, specifically designed to latest recommendations which call for the tap to be positioned more conveniently on the side of the basin closest to the seated user. These packs have a left hand or right hand single taphole basin specific to that need. Taps have copper tails as these are preferred in many applications.

TMV3 approved basin mixer to help prevent scalding with integral thermostat to reduce legionnaire risk.

For complete pack use pack codes on previous page

For individual items use codes below



Notes:
Left hand corner installation illustrated

This layout is only suitable where it is not the only toilet facility within the building

Wall and floor finishes must contrast visually

Wall finish must contrast with grab rails and sanitary fittings

Emergency lighting must be provided

Lever action tap supplied

Door is to be fitted with light action privacy bolts with emergency release mechanisms

Any fire alarm emits a visual and audible signal to warn occupants with hearing or visual impairments

Any emergency assistance alarm system has:-

i) Visual and audible indicators to confirm that an emergency call has been received

ii) A reset control reachable from a wheelchair and the WC or from the wheelchair and the shower/changing seat

iii) A signal that is distinguishable visually and audibly from the fire alarm
