

Silicone Frame Seal

A brilliant white silicone rubber sealant for external sealing around door and window frames, including PVC-U. Trade Mate Frame Seal provides excellent unprimed adhesion to most common construction materials and will not discolour. This sealant also offers good joint movement capabilities and, once cured, will remain flexible and totally water resistant throughout its long service life.

Applications:

External perimeter pointing of door and window frames, especially PVC-U, coated aluminium and painted surfaces.

Performance Benefits:

- ◆ No primer needed
- ◆ High movement capability
- ◆ Will not crack, shrink or craze
- ◆ Excellent adhesion to most common substrates including PVC-U
- ◆ Long service life
- ◆ Maintenance free

Colour: Brilliant White
