

Silicone Frame Seal

A brown silicone rubber sealant for external sealing around door and window frames, ideal for most substrates including stained timber and micro-porous surfaces. Trade Mate Frame Seal provides excellent unprimed adhesion and joint movement capabilities. It is totally water resistant and will require no maintenance throughout its long service life.

Applications:

External perimeter pointing of door and window frames, especially stained/treated timber and non-porous surface treatments such as painted substrates.

Performance Benefits:

- ◆ No primer needed
- ◆ High movement capability
- ◆ Will not crack, shrink or craze
- ◆ Excellent adhesion to most common substrates including stained timber
- ◆ Long service life
- ◆ Maintenance free

Colour: Brown
