## HAND WASHING

### TECHNICAL SPECIFICATION

#### Installation and Maintenance

Please refer to the appropriate Product Manual.

#### Connections

Inlets: ½" BSP.

**Note!** Basin thickness should not exceed 20 mm at the tap hole.

The tap features an adjustable flow rate facility which can be set by the installer during installation and is supplied with both red and blue indices to allow connection to either hot or cold supplies.

#### Approvals

Designed, manufactured and supported in accordance with accredited BS EN ISO 9001:2000 Quality Management Systems and BS EN ISO 14001:2004 Environmental Management Systems. WBS approved.

#### Operation

The product automatically stops the flow of water after approximately 15 seconds and is non-concussive in operation.

#### Materials

Body: Chrome plated brass.

#### Temperature Range

Maximum water temperature: 70°C.

#### Pressures

Minimum maintained pressure 0.15 bar.

Maximum static pressure: 6 bar.
