

**Our commitment to you**

Our innovative products are designed with the environment in mind, with low emission technology and high efficiencies, as well as a host of other great features.

Rinnai is committed to ongoing innovation - delivering efficient, well designed and engineered lifestyle solutions offering a host of benefits including versatility, safety, control, water conservation and guaranteed reliability.

Backed with extensive warranties and after sales service teams, Rinnai is proud to be the No.1 choice for Continuous Flow Hot Water. In addition, our innovative range of Solar Hot Water Systems boast market leading efficiencies.

Through innovation, we will endeavour to continue offering superior ranges of appliances that provide a clear insight into what the future holds.

Enjoy the comfort, convenience and reliability of Rinnai gas heating appliances

# Rinnai | FANNED CONVECTION HEATERS

Widely used in Schools, Community Centres, Conservatories and Churches.

Rinnai Fanned Convection powered flue heaters were introduced into the UK in 1979 and have earned a well deserved reputation for providing safe, controllable heat with maximum energy efficiency, combined with flexibility of location.

All heaters available as natural gas or LPG models.

Rinnai heaters employ the latest technology, and are the most advanced units on the market today. The heaters are fitted with a small powered flue to allow flexible positioning and flue extensions are also available. Since their introduction into the UK over 25 years ago many buildings throughout UK have benefited from choosing Rinnai heaters as a safe and reliable source of heat.

The Rinnai heaters are manufactured to have a modern appearance and advanced technology, together with high efficiency and reliability.

All Rinnai Wall Heaters are fitted with:

- Flame failure protection.
- Automatic ignition
- Fan assisted flue
- Fan assisted convection
- Stainless steel heat exchanger
- Integral air filters
- Flexible flue extensions

Rinnai 556T and 1004T Heaters are also:

- Suitable for central timer control

Rinnai 308FTR and 556FTR Heaters also have:

- Infra-red remote control (ON, OFF, Temperature UP or DOWN)
- 24 hour digital dual timer with intelligent features
- Self diagnostic
- Self learning pre heat time

## Rinnai 308 FTR

Input	3.5kW/11,942 Btu/h
Output	2.92kW/9,963Btu/h
Height	680mm
Width	425 mm
Depth	165 mm
Standard Flue	240mm - 400mm
Alternative flues to fit walls	5mm - 1000mm
Flue hole diameter	80mm

## Rinnai 556T/556FTR

Input	6.4kW/21,837 Btu/h
Output	5.2kW/17,742 Btu/h
Height	554 mm
Width	750 mm
Depth	250 mm
Standard Flue	240mm - 400mm
Alternative flues to fit walls	5mm - 1000mm
Flue hole diameter	80mm

## Rinnai 1004T

Input	11.6kW/39,780 Btu/h
Output	10.23kW/34,900 Btu/h
Height	670mm
Width	930 mm
Depth	315 mm
Standard Flue	240mm - 400mm
Alternative flues to fit walls	5mm - 1000mm
Flue hole diameter	80mm

\* Flue extensions are available to allow all the wall heaters to be fitted with a maximum flue length of 7 metres, less 1 metre per bend, to a maximum of 3 x 90° bends.

Please contact Rinnai for assistance with selecting the heater that will best suit your specific requirements.
